

# Marc T. Neilson Interiors

## About Valarie Steil

I began as an interior designer in 1980 and have been fortunate to design residences in diverse locations such as Wisconsin, Indiana, Illinois, Michigan, Colorado and Arizona.

Whether working with clients that are very discriminating and already have a good idea of what they want or clients that are style-challenged or confused, my focus is achieving liveable interiors that are practical, comfortable, indicative of the client's spirit.

The value and comfort of design transcends time, and my extensive travels, constant reading, and associations guides me through all phases of the design process.
