

Interior Design Redefined

We have redefined the way you hire an interior designer!

About Sara Halias

Interior Design Redefined was established with the intent to provide every one with the opportunity to have a custom stylish interior.

Sara Halias, allied member ASID, founded the company in 2008. After spending eight years in the interior design industry she realized that few could afford to hire an interior designer. Sara believes that everyone deserves to have good design available to them. Now through Interior Design Redefined anyone can afford a custom designed package that will reflect their own personal style.
